

Real Food. Fast.

"I created Vega to provide a quick and delicious source of sustainable energy through proper nourishment, not stimulation. To me, Vega is a way of life. I hope you enjoy it as much as I do!"

Brendan Brazier

WHY COMPROMISE?

Finally, an energy bar that combines whole food goodness with fast food convenience!

Like our popular Vega meal replacement, our new Vega whole food energy bars are made exclusively from natural, plant-based ingredients.

Formulated by Brendan Brazier, vegan, professional Ironman triathlete and best-selling author on performance nutrition, Vega whole food energy bars provide unparalleled nourishment in a convenient and delicious form.

Each bar features:

- 10g Complete Raw Protein
- 6g Dietary Fibre
- 6g Enzyme-rich Sprouts
- 4.5g Omega 3 & 6 EFA's

Unlike traditional cooked and processed bars, Vega bars are 100% raw, alkaline and enzymatically alive, requiring less energy to digest and providing a greater net energy gain.

An ideal snack for people on the go, Vega bars provide high quality convenient nutrition without compromises. Clean and green, Vega bars contain no refined sugars, oils, gluten or soy; GMO and pesticide-free.

Available in delicious and wholesome Natural, Chocolate and Berry flavours. For more information visit www.myvega.com or call toll-free 1-866-839-8863.
